

SASKATCHEWAN TEACHERS' SUPERANNUATION COMMISSION

Annual Update:

When there is a change to your monthly payment you will receive notification of the change. The Saskatchewan Teachers' Superannuation Commission

is pleased to provide you with your January 2013 Notification of Deposit. Your January payment reflects your **2013 Cost of Living Allowance**

(COLA) increase of 1.4%, plus changes in Federal and Provincial income tax rates.

Cost Of Living Allowance Increase:

The *Teachers' Superannuation and Disability Benefits Act* provides for retired teachers, survivors, dependants and disability recipients to receive an annual COLA.

For those who began receiving payments during the 2012 calendar year, the COLA will be prorated. Allowances are adjusted each January 1 by 80% of the percentage increase obtained by dividing the average Canadian consumer price index (CPI)

for the 12 months ending on the 31st day of October of the previous year by the average CPI for the 12 months ending on the 31st day of October one year earlier. Your annual increase is provided to help offset the effects of inflation.

How is the Amount of Income Tax Deducted from My Teachers' Allowance Determined:

Have you ever wondered why the tax deducted is lower in the New Year even though your teacher allowance has increased? This is most likely due to increases in the Federal and Provincial basic tax exemptions which usually happens effective January 1st. An increase in basic exemptions decreases the amount of income that is subject to income tax. The Commission will deduct the income tax that is required

based on your teacher allowance and any other exemptions you may have claimed which are over the basic personal amounts. Alternatively, you may have instructed the Commission to deduct a specific percentage amount (i.e. 20%). Your overall tax planning should take into consideration all your sources of income (i.e. CPP, OAS, investment returns) as your entire income generates the amount of tax that

is payable for the year. Adding all your sources of income may push you into a higher tax bracket. If you have any questions regarding the amount of personal tax that is payable from your entire income, it is prudent to consult with your tax preparer or the Canada Revenue Agency (CRA) to assess your overall tax situation.

2012 T4A Income Tax Slips:

The T4As **are scheduled** to be mailed from the Teachers' Superannuation Commission **the week of February 11, 2013**. For those who superannuated part way through the year, you will

receive a separate T4A for the group life insurance taxable benefit from when you were teaching. For those who were in receipt of a disability benefit and superannuated part way

through 2012, you could receive up to 3 T4A's. One for your disability benefit, one for your superannuate benefit and one for the group life insurance taxable benefit from when you were teaching.
